

Purina Mills® AntlerMax® Deer Chow® 24 59SA

Designed for the Life of Your Deer™

What It Is:

A 24% -protein pelleted ration designed to enhance the deer's natural forage diet. The high protein content supports top performance with patented AntlerMax® Mineral Technology to promote superior antler growth in bucks, reproductive success and abundant milk production in does and assure optimum growth and healthy development in fawns. Contains proprietary AntlerMax® Mineral Technology, a power-packed nutritional package with ideal amounts and ratios of vitamins and minerals for superior antler density and strength, optimum reproductive performance and healthy fawns.

FEATURES

AntlerMax® Protein Technology

BENEFITS

Superior Antler Size and Mass

Promotes antler growth by improving protein quality. The unique digestive tract of deer reduces the quality of most proteins by breaking them down too quickly and diluting their value for antler growth. AntlerMax® Protein Technology protects high-quality proteins from early breakdown and delivers a higher concentration to the growing antler.

Develops Exceptional Body Size

High-quality protein helps build muscle for exceptional body size.

Top Reproductive Performance and Strong Healthy Fawns

Provides critical nutrients to help assure top fertility. Helps to increase milk production and milk quality. Helps produce strong, healthy fawns with high survival rates.

Supplements Poor or Sparse Forage

So deer can maintain vigor during periods of environmental nutritional stress.

AntlerMax® Mineral Technology

Optimal Antler Growth, Density and Strength

A power-packed nutritional package with ideal amounts and ratios of vitamins and minerals for optimal antler growth, reproductive success and enhanced growth rates.

Strong Apple Flavor

High Palatability

Enhanced with strong apple flavor to attract deer to the feed to so they receive the benefit of a balanced diet.

High Quality Ingredients

Optimum Performance

Superior ingredients ensure high feed intake for optimum performance.

Purina Mills[®] AntlerMax[®] Deer Chow[®] 24 59SA

Designed for the Life of Your Deer[™]

How and When to Feed:

1. Feed Purina Mills[®] AntlerMax[®] Deer Chow[®] 24 to deer, elk and other game starting in January when antler development begins through September or until antler growth is complete (antlers harden).
2. Feed free-choice with adequate native forage or good quality hay.
3. Place under shelter near high animal activity and close to a constant supply of fresh, clean water. For best results, place feed in a free-choice protein feeder.
4. Consumption will vary depending upon season of the year, nutritional needs of the animals, availability of other foods and familiarity with pelleted feeds. Deer and elk unaccustomed to eating pelleted feed could require 30-45 days to achieve high intake. To speed this process, blend 75% corn with 25% pellets and gradually eliminate the corn over several weeks as deer accept the pellets.
5. If fed to animals in confinement, feed one to two pounds per 100 pounds of body weight in addition to free-choice, good-quality roughage.

Important:

1. A feeding program is only as effective as the management practices. Actual results can vary depending upon feed intake, environmental conditions and the quality of management practices.
2. Purina Mills[®] AntlerMax[®] Deer Chow[®] 24 is a supplement, not a complete feed, and must be fed with free-choice access to adequate hay or native forage.
3. Deer, elk or other game should not have free access to corn as eating too much corn at one time can lead to serious digestive upsets and in extreme cases, even death.
4. Provide water and Purina Mills[®] AntlerMax[®] Deer and Elk Trophy Mineral[™] (59SF) at all times.

Caution:

Do not feed to sheep! This product contains copper. Store in a dry, well-ventilated area free from rodents and insects. Never use moldy or insect-infested feed. Regulations for the feeding of big game can vary from state to state. Please check with your local game and fish department for the proper usage of this product.

Guaranteed Analysis:

Crude Protein, not less than	24.0%
Crude Fat, not less than	2.0%
Crude Fiber, not more than	13.0%
Crude Fiber, not less than	11.0%
Calcium (Ca), not less than	0.90%
